Van Horne's Macy is another one of our twist horn cows. Her striking red color and twisting horns are always a pasture standout. Her sire, Van Horne Texa, is a son of the great Tempter bull and the amazing Texana Van Horne. Her Dam is the 87"+ inch SR Maddens Marley 000. SR Van Horne's Macy produces great calves year after year and we hope they have the same twist that she does. Only time will tell.
